Products	Description	Load per		
		5 Gal Bucket	Per 1/2 Yard	Per Yard
Med Bark	Beauty Bark Medium : Fir bark, "fresh" single grind tree bark, reddish brown to dark orange in color. Adds a clean finished look to any yard. Once settled, fines will settle to the bottom leaving bigger pieces on top. Also helps to prevent weeds.	2.00	15.00	26.00
Fine Bark	Fir bark, "fresh" double grind tree bark, reddish brown to dark orange in color. Acts as a natural weed barrier.	2.00	13.50	23.00
Mixed Grind Bark	Mixed grind tree bark, slightly aged and brown to mahogany in color.	2.00	11.50	19.00
Black Bark	Single grind aged and slightly decomposing bark. Flowers and lawns really "pop" when this product is used to top dress. Since this product is decomposing it takes less nitrogen from surrounding soils and plants. Helps hold moisture in as well as prevents weeds.	2.00	10.50	17.00
Compost	This compost is made up of food scraps, food soiled paper, farm waste, mixed yard waste and wood waste.	2.00	9.50	15.00
3 Way Mix	Created using a blend of 1/3 Compost, 1/3 Topsoil, 1/3 Manure. This nutrient rich product is terrific for vegetable gardens	2.00	10.50	17.00
2 Way Mix	Great all purpose soil created using a blend of, 2/3 topsoil, 1/3 compost. Ideal for planting grass seed, laying sod, or patching lawns.	2.00	9.50	15.00
Top Soil	Standard 1/4 minus screened soil. Used as a base for gardens, lawns and other landscapes.	2.00	9.00	14.00
Sand	Course sand free from rocks. Used for top dressing lawns after aeration, as a base for brick pavers or flagstone, bed for pipes and children's sandboxes.	2.00	12.00	20.00
<b>Yard Debris Recycling</b>
